PIONEER WASHER.
E. G. BOLTER,
AGENT FOR OREGON AND WASHINGTON TERRITORY.

THIS CELEBRATED WASHING MACHINE IS now for the first time introduced to the Oregon public. It is unrivalled for its simplicity, durability and the rapidity and ease of its action. Washing the dirtiest clothes perfectly clean in from five to ten minutes, with but slight labor, and lasting, with proper care, for ten years. The wear and tear of clothing in washing by this machine is vastly less than by any other known process of washing. It does its work by a reverse motion in forcing the water through the clothes.
It having a tight cover, the steam thus assists materially in cleansing the clothes, and also avoids the inhaling of steam from hot suds.
This Machine captured the Special Premium at the California State Fair, and all that have used it pronounce it an invaluable fixture to aid housekeepers and families and washing men and washing women.
It has been extensively introduced throughout the State of California, and receives the universal commendation of all who have used it.
THE COUNTY RIGHTS, now unsold, will be sold at a bargain if applied for soon.
For Reference, enquire at the
Mansion House, and of John Wilson,
Southworth's Boarding House, Mrs. S. F. Johnson.

ON AND AFTER WEDNESDAY, MAY 29TH, TILL August 1st, 1867, the well known and fast sailing STEAMER
U. S. GRANT,
Will make Two Trips per Week to the
CITY OF ASTORIA!
Carrying Passengers at $10, the Round Trip, (Meals Included.)
The Boat leaves Portland Wednesdays and Saturdays at 7½ A. M. Returning leaves Astoria Thursdays and Mondays at 6 o'clock A. M.
Every person purchasing a Passenger Ticket will be presented with one of 100 Price Tickets, to be drawn on the 1ST DAY OF AUGUST, 1867, for the following Prizes.
Steamer U. S. GRANT, to be divided into 4 shares;
ONE BLOCK OF LOTS IN EAST PORTLAND, divided into 8 shares, or one lot to the share, viz: Lots 1, 2, 3, 4, 5, 6, 7 and 8, Block 17, opposite the "New Columbian" Hotel, and at the terminus of the proposed Suspension Bridge;
ONE GOLD WATCH, worth $100;
150 CORDS DRY FIR WOOD, in 3 shares, to be placed on the Brooklyn Wharf.
The Steamer is 94 tons burthen, 52 horse-power engine, propeller wheel, draft of water 5 feet. She is being thoroughly refitted and refurnished as a Passenger Boat. The Boat will be delivered in perfect order, free from all incumbrance, and Warranty Deeds made for the real estate, to the persons drawing the same. Tickets can be had of C. P. FERRY, in Portland, where the money will be left on deposit till the prizes are drawn and delivered.
Any person having a claim against me, and wishing a ticket, can get an order for one by calling on me on board the boat. The person drawing the gold watch can have $400 in gold coin, if preferred.
C. P FERRY, Broker, R. J. LADD, ex-Sheriff, AL ZEIBER, U. S. Marshal, and C. S. HILYER, Merchant, of Portland, are the Committee and Judges to direct the Drawing of Prizes. The Prizes will be drawn before the 1st of August, if all the Tickets are taken before that time.
☞ The above liberal offer is made to the traveling public to enable the subscriber to pay his debts, and not with any reference to speculation, as all the property is valued at much less than its cost, (the Steamer alone having cost $11,000), and the price for carrying passengers to Astoria being much less than the usual fare.
Portland May 21, 1867. d2m J W KERN.

Notice.

OWING TO THE STEAMER U. S. GRANT having lost several regular trips, she will continue to run for a few weeks, to give all ticket holders an opportunity to travel. The tickets stand good for a passage as long as the boat continues to run. A few more tickets yet to be disposed of.

General Sickles.

General Sickles received a flattering ovation in New York, on his recent arrival there, from his old comrades of the Excelsior Brigade, the grand army of the republic and officers and men of the old volunteer army generally. Gen. Sickles was received with continued cheers, and leaning on his crutches he addressed the assemblage as follows:

Comrades, Friends and Fellow-citizens: No one could receive this welcome without grateful acknowledgements. It is for me another testimonial of the affectionate attachment of my old comrades, and yet another proof of the indulgent regard of my friends and fellow-citizens. I pray you, General Sharp, to accept my thanks for the commendation you have bestowed upon my services, and my thanks are a thousand times repeated to this large assemblage for their hearty endorsement of your address. This meeting brings back glorious recollections of dangers you have bravely met; of sacrifices you have cheerfully borne; of your fortitude under reverses when many at home were desponding; of your victories nobly won; of your generosity to the vanquished, and of your unmovable faith in the final success of your arms and in the good Providence which would preserve the republic. I am glad to see you are not unmindful of the fraternal ties which bind the old army together in true brotherhood. Without making these organizations political, which would disturb their harmony and impair their usefulness, they can do much to promote the benevolent objects of their founders, and their families. All honor to the grand army of the republic! While the American people cherish in grateful remembrance the fidelity and the valor which saved the nation, they will not suffer the sacrifice of long years of war to be wasted. [Applause.] In the prosecution of the war no institution, no party, no man was permitted to stand in the way. [Applause.] In the settlement of the terms of peace the will of the majority of the loyal people represented in congress must and shall be obeyed by all departments, and by every citizen, by every magistrate and by every soldier. The destiny of the republic is safe in the hands of the men who put down the rebellion. This is not the time nor the occasion for me to discuss any personal or political issues. There are matters of deep interest to all of us now engaging the public attention, about which I would like some day to know your views. "Radical to the backbone," and possibly you may hereafter to know mine. I shall not refer to my recent service in the Carolinas, any further than to declare that I obeyed all the orders I have ever received, and that I faithfully endeavored to exercise the authority I possessed for the welfare of the people committed to my charge, according to the true intent and meaning of the laws which govern my action. Much remains to be done before our beloved country can enjoy the repose and security you won for her at Gettysburg, Atlanta, at Spottsylvania, at Winchester and Richmond. The enemy who surrendered to Grant and Sherman, and Sheridan, are now on their parole of honor to obey the laws of the land; and I believe their parole will be kept whenever the government, in all its departments, is agreed upon the duty to be performed. The will of the people who put down the rebellion must be executed. Then and not till then shall we have peace. Let us have faith in the future. Let no one take counsel of the timid. Whoever may be tried and found wanting; the army of to-day, and the armies of 1865, the citizen soldiers of the republic, and Grant, their invincible leader, will never falter—never fail.

Arraignment of Andrew Johnson.

Major General Logan delivered a long and vigorous speech at Hamilton, Ohio, lately, in which he arraigned the Democracy for their crimes and infamy, and said of Andrew Johnson:

"Tell me to-day if you had Jeff Davis in the Presidential chair, or Robert E. Lee, could they have done more for the rebels in the land than Andrew Johnson has done since he has been President? If they could, I want to know in what way they could have done it. If Jeff Davis had been President, what would he have done? He would have returned all the property to the rebels that they had lost. Andrew Johnson has done that. If Jeff Davis had been President he would have pardoned all the rebels that asked him for pardon. Andrew Johnson has done all this and more too. If Jeff Davis had been President, he would have denounced this Congress, and called them a set of traitors. Andrew Johnson has done that. If Jeff Davis had been President he would have appointed rebel Governors down South to control those States. Andrew Johnson did the same thing. If Jeff Davis had been President he would have vetoed the Freedmen's Bureau Bill. Andrew Johnson did that. He would have vetoed the first Reconstruction Act of Congress, and all the other Acts which Johnson has done."

Upon the same day W. D. Kelly spoke in Cincinnati, and after describing an interview which he had held with President Johnson, shortly after the death of Abraham Lincoln, in which Johnson had declared himself in thorough harmony with Congress and the North, said:

"As I left the room, pleased that I had there confidential interviews with him, I met General Schurz, fresh from Sherman's army in North Carolina, with his stars yet upon his shoulders, and the dust of Sherman's grand march to the sea still upon his soldierly habiliments. [Applause.] I met him but for a moment. Said he: 'The President is all right, if he don't talk a little too strongly. I am afraid,' he continued, 'that the tones of the President and the very vehement protestations make me fear the fidelity of his statements.' I met him next day in Philadelphia, and in the presence of a number of gentlemen, General Schurz and we compared notes, and found that Johnson had talked to him as to me, and to both of us as to Charles Sumner. I met him again a few days afterward with General Stuart, L. Woodford and General Littlefield—the one fresh from the post command of Charleston, South Carolina, and the other from the command of the post of Savannah, Georgia, and I learned that the one had heard from Georgia gentlemen, who had been with the President in private interview with him, and stated that it was his purpose to overthrow the radical party and reorganize the national Democratic party, 'and,' said General Woodford, naming gentlemen from South Carolina—rebels—'that is the statement Johnson made to each and all of these gentlemen—each separate and apart from each other.'"

THE GREAT AMERICAN DESERT.—A letter from Omaha says:

"In an atlas I used to study long ago, and I am no chicken, there was laid down just west of the Missouri river, a tract broad and expansive, called 'The Great American Desert.' I recollect a forlorn buffalo, with tail erect, sprawled away outside of this tract, to show that he did not belong in it and couldn't afford to live in it on any terms, and even an Indian, with his pony's tail turned to the Desert, was chasing off at top speed for a better locality. As an infant in geography, I always took a great amount of stock in this desert idea, which now I think after all, grew out of the conceit of some lazy engineer, who got sick of the vast expanse of chain-dragging, and lumped the whole as a region not worth ten days' work with chain and level. He libeled the fairest wheat-growing section in the world. To-day thousands of acres of the finest wheat that ever grew yellow in the Summer's sun are heading and ripening on the fertile bosom of Nebraska, to give the lie to my old atlas and the topographical chap who mailed good Mr. Malte Brun. I went up the Platte valley twelve miles on horse-back the other morning to a noble farm of twelve hundred acres, six hundred of it in wheat. Do you know that Nebraska raises more wheat to the acre than Illinois, Wisconsin or Michigan? Put that along-side the Great American Desert story and let it choke to death forever."

The earnings of the Atlantic cable during the past year are reported at $1,000,000 in gold, of which sum the Newfoundland line received $500,000 in gold as its share. Ocean telegraphing evidently pays; but before long the cable company will have pl

The Late Elections

It is 1862 over again In September of that year President Lincoln gave notice of his purpose to proclaim emancipation The elections that followed went heavily against the Administration. All the great States were carried by the Democrats Illinois was lost by an adverse majority of 16,516, New Jersey by 14,597, New York by 10,752, Ohio by 5,577, Pennsylvania by 3,624, and Indiana by 9,543 The Democrats elected in these States 63 members of Congress, or two thirds of the whole number chosen, and secured a United States Senator in each of the States of Pennsylvania, Illinois, Indiana and New Jersey These defeats occurring in the height of the war, were said to seal the doom of the Union or Republican party. The Democracy were in ecstasies over the "reaction." It was confidently predicted that the defeated party had fought its last battle—that it could never rally for another considerable effort. The successful party interpreted the election as proof that the people were determined to sustain the policy of President Lincoln no longer, and that emancipation in particular was emphatically condemned. Democratic editors amused themselves with writing the epitaph of the Union party—just as they will be doing now. But the defeats of 1862 were much more disastrous than the defeats of 1867. Then, a Congress was chosen composed in large part of members hostile to the administration and the Union party; now Congress is secure, and though we shall lose a Senator in California and possibly one in Ohio, we shall gain one in Tennessee. So as we have the defeats of 1862, the most disheartening period of the war,—we can bear our present defeats and go to work with a will to retrieve our losses and gain new victories as we did in 1863 and 1864. It will be said that the late elections are an emphatic protest against the policy of Congress in enacting negro suffrage in the rebel States. So it was said that the elections of 1862 were a protest against emancipation. But emancipation succeeded nevertheless, and the defeats of 1862 were a positive advantage to the Union party. Reverses like those we have lately met are not the most pleasant results imaginable; but they should not and will not dishearten any intelligent supporter of the national cause. They will cause the party next year to put forth its utmost strength, and from the nettle of temporary defeat we shall pluck the flower of victory, as we have done heretofore. The Democrats of course will rejoice exceedingly, but experience ought to have taught them by this time not to be too certain of the immediate and irretrievably ruin of the Republican party.

Public Debts.

Everything relating to the financial condition of the country is studiously and persistently misrepresented by the Democratic press. The Albany *Democrat* presents the subject in this wise:

As a nation we now owe about four billions of dollars, and the county, town, municipal and State debt is, according to the best authorities, about three billions of dollars—making a grand total of seven billions—a debt more than twice as large as that of Great Britain; while our taxable property is not much more than half as large, and the interest we pay is nearly double that paid by Great Britain.

The most charitable supposition is that the editor of the *Democrat* knows no better than this,—that he has drawn these statements from some one of the reckless writers of his party and reproduced them without stopping to consider their extravagant absurdity. As a nation we do not owe about four billions of dollars, but barely three-fifths—not much more than half—of that sum. The Secretary of the Treasury states, officially, that the national debt is $2,496,277,446 76. If his statements are not reliable who will be accepted as an authority? Again, the local and State debts do not amount, according to any authority, to "about three billions more." The State debts in 1860 amounted to about $350,000,000, an increase of only $96,000,000 since 1860. The county and municipal debts, according to elaborate statements recently published in able financial journals of the East, do not exceed $300,000,000. The aggregate of public indebtedness, National, State, county and municipal, is therefore but little more than three billions, instead of seven billions as asserted by the *Democrat*. Our public debts of all descriptions are less by one billion dollars than the national debt of Great Britain. Again, it is a habit of Democratic orators to assert that our national debt is equal to one third of all the property in the country, real and personal. By referring to the census returns of 1860, it will be seen that the assessed value of property in the State of New York alone was $1,845,339,517. Add to this the assessed value of property in the State of Illinois, as shown by the same returns, and the sum will considerably exceed the present amount of the debt. The Democrats are continually endeavoring to delude the people in relation to these matters; and as taxes, which before the rebellion were light, are now pressing heavily, they use their misrepresentations with considerable effect among the unthinking classes.

The amount of aid granted by Congress to the Pacific Railroads is as follows: Central Pacific from Sacramento to Salt Lake, 701 miles, $24,732,500. From Sacramento to the base of the Sierra Nevada mountains the grant is $16,000 per mile; across the mountains the grant is $48,000 per mile, and for the remainder of the distance it is $32,000 per mile. Union Pacific from Omaha to the junction of the Central Pacific at or near Salt Lake, 935 miles, $24,732,560. From Omaha to the base of the Rocky mountains the grant is $16,000 per mile; across the mountains, a distance of 150 miles, the grant is $48,000 per mile, and the balance of the distance it is $32,000 per mile. In addition to these grants, the aid given to the Union Pacific, Eastern Division, amounts to about $10,000,000. The bonds for these railroads bear 6 per cent. currency interest. A subsidy similar to this is what is wanted for the Northern Pacific Railroad.

Late papers state that the New York *Herald* is "flopping" again. It now calls on Johnson to resign. Were he to follow the advice it would save the trouble and expense of an impeachment trial. It has only been a month since the *Herald* went over to Johnson, and as a compliment for the service it got the Grant correspondence in advance of all the other papers. But Bennett can throw back summersaults with wonderful agility. After he had fairly considered the California election, he said:

The President must not be misled by his sycophants and flatterers into the notion that this reaction against the radicals is in his favor He will make the worst of all his blunders if he draws any encouragement from the radical defeat on the Pacific.

Bennett knows that Johnson will yet have a hard road to travel.

"How do you feel now?" was a question which was put to a Republican by a Democrat of the Confederate stripe, yesterday, when the election news arrived. "To tell you the truth," was the rejoinder, "I feel almost as bad as you did when Richmond was taken!" Democrat looked reflective. The remark had awakened unpleasant memories.

The Democratic vote in Maine is 4,396 larger than that of last year, and is 104 larger than in 1864. It is 4,850 smaller than in 1863. In that year the Democratic vote was 50,366, this year it is 46,597. Politically, Maine is just where she has been for the last twelve years.

Seventh Annual State Fair.

[FROM OUR OWN REPORTER.]

SALEM, Oct 10, 1867

The last cloud left the sky at noon, and the sun came out warm and bright, giving everybody the double assurance of fine weather through the Fair. The attendance was larger to-day than yesterday, and the Fair which on Monday promised to be almost a failure on account of the weather, is now considered by many the best ever held in the State.

TRIALS OF SPEED

The horse White Sock, formerly "Portland," made the best time. He ran one mile in 1 minute and 52 seconds Premium, $75 Trotting mare 2 P. M., for stallion colts, two best in three, was won by "Peerless." Time, 3 25 and 3-10, premium, $75. The trials in trotting, pacing and walking, resulted as follows Best time, trotting, one mile, horse Attilla—3 15½ First premium, $15. Pacing, one mile, best time, horse John Brown—2 51 Walking, one mile, to Scroggin's horse, first premium, $15—time, 10 11.

The ladies department in the pavilion is better filled and makes the best display, embracing bead work, needle-work, crotchet, painting, crayon, quilts and tidies.

The number of quilts (patch-work) was large, and the work and style is generally very good. A quilt made by Mrs. Chase, of Oregon City, (a lady seventy-five years of age,) drew the first premium. The quilt bearing the inscription of "The Union Forever," in the center, surrounded by stars and stripes, attracted some attention. There was a large eagle in each corner, each eagle being surrounded by three large sugar pine burrs. The bird had web feet. It is thought that he must be a conservative eagle. A toilet cushion, made by a girl nine years of age, is very nice, and would be creditable for older hands. An ottoman cover, by Mrs. S. A. Clark, of Salem, is beautiful, and an undershirt made by Mr Howell, bearing the inscription, "We a long yarn could unravel," is exquisite. It was made by hand Your reporter is not master of words to apply to the workmanship, and can only say that it is elegantly worked and must have required great time and patience to accomplish it. The white merino opera cloak, made by Mrs. M. Wilson, of Portland, is also very handsome. I observed several large rolls of excellent rag carpet and three or four hearth rugs, curiously worked, combining beauty and ornament.

A shell frame, and wreath of beautiful wood, and sea mosses, made by Miss C. Perkins, exhibits artistic skill and good taste. The tapestry picture of Miss Rosa Matthews, of Butteville, is very ingenious, and the crayon, "Gertie's first lesson," by Gertie Gray (a little girl of Salem), is good for one so young.

The basket of flowers worked in worsted, the sofa cushion, and the shell frame by Mrs. Denlinger, were very pretty. The leather work by Mrs. Keller, Strong and others, was good; in fact there are no articles in this whole department that are not creditable. The ladies deserve many thanks for the great number, beauty and excellence of their contributions to the Fair. Many more of their specimens are equally as deserving of notice as those mentioned, and I regret that time and space will not permit me to speak of them more in detail.

Dr. L. F. Skiff, of Salem, exhibited the only dentistry, and his specimens do honor to the profession, as well as to himself. He also exhibited an anatomical preparation of the upper and lower maxillar, carved, showing on one side the nerves, and on the other the veins and arteries. It is very interesting and attracts much attention.

Samples of Oregon made leather; brooms, of Oregon corn, made at Bolter's factory, Portland; boots, made by E. W. Gilbert, of Salem; books, bound at Siebert's bindery; buggies, manufactured in Portland, Oregon City and Salem, show that Oregon need not send abroad for the best of these articles. But few home manufactured samples were exhibited, but the few that are here are very good.

The knitting machine generally has a crowd of ladies around it, and no doubt but many an old lady, upon seeing the rapidity with which it makes socks, thinks her occupation is gone.

This evening a man was arrested at the gates for attempting to shoot the gate keeper. He refused to show or get a ticket, and swore he would go in without one. He struck the gate-keeper for trying to keep him from going in, and he then drew his revolver and tried to shoot, but was prevented by the bystanders.

HOT BREAD AND WHISKY.—Mr. R. Winwood Reade—a son, we believe, of Mr. Charles Reade, the novelist, and a writer of some power in the magazines—has furnished the Boston *Transcript* a criticism on the prohibitory liquor law of Massachusetts. We quote a few sentences:

What is a citizen's stomach? Is it his own property? Certainly not. It is an article of value which he holds in trust, under Providence, from the State, and it is for the State to prevent him from injuring it in any way. But why stop short at alcohol? Is that the only injurious substance which the citizens of Boston are in the habit of enjoying? The use of hot Bread as an article of food is extremely common here, and no medical man will deny that thence arises dyspepsia. Let us have a law against hot bread. Its ravages rival those of alcohol itself. Compare the hot-bread-eating American girl with the beer-drinking English girl, and it will be admitted that a prohibitory law is as necessary in one case as in the other.

If the quality of food is a proper subject for legislation, its quantity is also, and those shades of sin, the large hotels in Boston, encourage gluttony almost as much as they do drunkenness. It is certain that all confectionery shops should be shut up at once; tobacco should be strictly prohibited, and when the season arrives unripe fruit should be seized and the venders fined. A legislative committee ought to be appointed to receive evidence respecting the wholesomeness of tea and coffee and to take measures accordingly. And this at least is certain, that laws against the use of hot bread, sweetmeats, tobacco, and unripe fruit would not only accord in principle with the present prohibitory law, but would be likely to have precisely the same effect as far as Boston or any other civilized city is concerned.

JOHNSON AT ANTIETAM.—The following is from a Washington dispatch of the 18th of September, to the Chicago *Tribune*:

The more the Antietam ceremony is sifted, the deeper is the disgust with it of all patriotic citizens. The egotistical speech of Johnson, with its perfidious allusion to the rebel dead, and with its impertinent lecturing of the people on their duties to the Constitution, on the very spot where so many are resting in their graves as its martyrs; the Copperhead oration of the man Bradford; the disgraceful behavior of some of Seward's foreign body guard; the vain attempt of Seward and his master to elicit cheers even from a Maryland mob in reply to their obsequious bowwowing; these and other ignominious incidents should make the nation blush for the desecration of the glorious cemetery, hallowed as it is not only by the heroic memories of the slayers of the slaveholders' rebellion, but also by the immortal address of President Lincoln, compared with which his successor's harangue reads like a sickening, hideous, monstrous burlesque.

THE WIDOW OF MAXIMILIAN.—According to the Belgian journals the Empress Charlotte of Mexico has had an interview with the Duke d'Aumale and the Prince de Joinville. The Queen of the Belgians took them to her at Tervuoren, and presented them without any previous warning. "Here, Charlotte!" said her Majesty, "are our uncles from England come to see you!" "Ah! my uncle Henry!" cried the Empress, running up to the Duke d'Aumale, and she embraced him. "And Joinville!" she added, embracing him also. Then she began talking about America, but frequently looked around as if in terror, and at moments she started under apparently the apprehension that some one was about to stab her from behind She spoke of the Fenian movement in the United States, of Paraguay and Brazil, but said not a word about Mexico. She evidently wanted to bring the two Princes to speak of that country but did not succeed. At last she took leave of them with a certain degree of coldness, she was evidently vexed that they did not speak of what she had most at heart.

The dispatches say that a Democratic Congressman is elected in Cincinnati, and speak of the result as a Democratic gain of 3,500. The facts are as follows: the Republicans and Democrats both nominated their candidates, when the working men and trades-union men hitherto associated with the Republican party, being dissatisfied with the Republican nominee, determined to run a candidate of their own in opposition to him This we learn from a late paper, and it is undoubtedly the cause which produced this apparently large Democratic gain.

A characteristic anecdote is related of an outcast-the elbow poet, who, by some freak of fortune, came into possession of a five dollar bill. He called to a lad and said, "Johnny, my boy, take *William* and get him changed." "What do you mean by calling it *William?*" inquired the wondering lad. "Why, John," replied the poet, "I am not sufficiently familiar with it to take the liberty of calling it *Bill.*"

Wheat—Holders are now demanding $2 50 in view of the improved European advices per cable this morning Sales 40-ctl were 300 sacks very poor at $2 20, 1,500 sks of Santa Clara at $2 35, 400 sks choice for seed purposes at $2 40 At the close 400 sks, ordinary, at $2 30, 900 sks, good milling, at $2 35, 600 sks, choice for seed, at $2 40, 2,000 sks, choice shipping at $2 37½ We quote the market very strong at $2 20@$2 40 for fair coast to choice bay, $2 40@$2 50 for choice for milling and shipping

Barley—Sales include 1,000 sks Lubts, at $1 60@$1 75 At the close, 600 sks old brewing sold at an extreme figure

Oats—Market quiet at $1 00@$1 85 ₩ 100 lbs

COUGHS AND COLDS ARE OFTEN OVERLOOKED—A continuance for any length of time causes irritation of the Lungs or some chronic Throat Disease "*Brown's Bronchial Troches* are offered with the fullest confidence in their efficacy, giving almost invariably sure and immediate relief.

NEVER TOO LATE TO DO GOOD.—Persons who heretofore have not bought their Clothing, Dry Goods, etc, of KOHN & FISHEL, can yet do so, as it is never too late to be convinced that at KOHN & FISHEL'S the most Fashionable Goods can be found, and at prices that defy competition. So, come one, come all, and each separately be convinced of the above facts

Buchtel's Photograph Gallery is the *only* establishment in Oregon that is thoroughly prepared to do *all* the *different styles* of work in the art Photographs from card to life size. *The new cabinet cards, &c &c* Small pictures enlarged (retouched in India ink—painted in water-colors or oil by Mrs S J Rumsey Pictures that are fading can be reproduced in this way All negatives taken in this gallery will be carefully preserved, and additional copies had. I have now on hand a very large collection of negatives, the names of which are recorded alphabetically in a book for that purpose that can be seen in the reception room.

LETTER FROM SALEM—THE "RECORD" AND THE PIONEERS. The following letter from Capt. Dodge, of the Willamette B. B. Club, comes under date of Oct. 10th

EDITOR OREGONIAN—*Dear Sir:* Seeing something in the *Daily Record* of to-day, which was, to say the least, unjust, I would say that I think the "elaborate appearance," if any, was in the undress of the Willamettes, as compared with the uniform of the Pioneers. All matches should be played in uniform, and that of your club seems to me neat, easy and comfortable. I have never played to, nor have I seen a match, where more general good feeling existed, or where the vanquished club entertained a higher opinion of the perfect fair play of the victors. The umpiring was fair, and showed perfect knowledge of the game and entire impartiality. For myself, my club, and I am certain the large majority of the citizens of Salem, I can say, we consider the Pioneers fine players—lucky to an extent not suitable and praiseworthy, and perfect gentlemen in every sense of the word. Of course the accident to our bowler interfered with the play of the Willamettes, as we have but one man who has pitched on our nine; and we hope that some time your club may not beat us as badly as yesterday. But the match was openly and fairly contested; and because our town was unfortunate is no reason for any slurring expression by any one. I can safely say, the opposition referred to are not at all the opinion of Salem. By giving this a place in your columns you will but do the Pioneers justice and confer a favor upon Yours, etc. EDWARD F. DODGE,
Capt 1st Nine W. B. B. C.

OREGON CITY ITEMS—The following items are from the *Enterprise*: The county commissioners' court was in session during the week. The assessor made his final return of all the taxable property of the county, exclusive of debt, which amounts to $1,744,965. In 1865 the amount was $1,005,594; in 1866, $1,019,809. The tax levied was 8¾ mills for State, 2 mills for schools, and 40½ for county. Total, 17 mills .....We have already spoken of the splendid blankets now being turned out at the Oregon City Woolen Factory. One of these has been beautifully embroidered by a lady of this city, and will be sent East by Mr. White, to Katy White, whose name appears in handsome text letters, in crimson, across one fold of the blanket. To all appearances it seems that the name was woven in at the time the blanket was finished, but this is not the case. It is really a fine piece of embroidery and highly creditable to the lady who executed it, Miss St. Clair..... Messrs. John Davenport and D. Wolfard passed through this city on Tuesday last with sixteen yokes of fine work cattle for an Indian reserve east of the Cascade range, ...Mr. Isaac Cantrell, engineer of the *Calda*, who was lately badly injured by being caught between the the starting bar and engine, is now spending a few days among his friends in this city. It was a most fortunate circumstance that he received no internal injuries of a permanent character, at the time of the accident..... The gates at the reservoir of the Oregon City Water Works Company were hoisted on Saturday evening last, and water was coursing through the street mains on Sunday. On Monday one or more of the hydrants were tested, and the perfect success of the works was established. Now for a tip-top, first class hose company. Hip, hip, come in boys!

RUNAWAY TEAM—ONE HORSE KILLED.—Mr. Henry Buxton, last evening, drove his four-horse team up to the front of the American stable on Front street, for the purpose of putting his horses up for the night. Just as they were unhitched and the leaders turned around facing the wheel horses, two or three trucks and wagons were driven up from different directions, making some confusion for the instant, when Mr. Buxton's horses became frightened and all four started on a run up the street. Near the junction of Morrison with Front, one of the horses ran with tremendous force against the end of one of the shafts of Mr. Taylor's dray, the shaft entering the horse's breast just above the breast bone. The shock threw down both the horses—the running one and the dray horse. When the dray horse was extricated, it was found that Mr. Buxton's horse was dead. The shaft had penetrated the body nearly or quite two feet. Two of the other running horses were recovered in a short time; the fourth, continued on up Front street and the Macadamized road, and had not yet been found at a late hour last evening.

VANCOUVER ITEMS.—We clip the following items from the *Register*: We are pleased to learn that an evening school will be opened on Monday evening next under the auspices of Rev. Father Mans.....The voters of Vancouver are requested to meet at Oro Fino Hall, on Monday evening, Oct. 14th, 1867, at 7½ o'clock, for the purpose of nominating candidates for City offices, to be balloted for at the ensuing election.....The first game in the match between the first nine of the Continentals and the second nine of the Shermans was played on Friday, the 4th inst. The game though well played on both sides, was won by the Continentals by 40 runs. The Continental Club is composed entirely of young men and boys, and though the Club is comparatively young, the first nine plays remarkably well, and we may soon expect to hear of their winning balls from older and more noted clubs. The second game in the match will be played to-day (Saturday, 7th.)

DISCOVERY OF GOLD IN THE CASCADES.—The Vancouver *Register* says: It is reported that rich diggings have been struck in the Yakama country, about 80 miles from this place. A gulch has been discovered, about seven miles long, which yields from five to twenty cents to the pan. Some forty men are now at work. A number of our citizens started yesterday for that region. We hope to hear further particulars soon. *Exter.*—In addition to the above we learn from Mr. Taylor, Representative from Clickitat county, that the mineral so far as discovered are located very near the summit of the Cascade, so high up that even now there is snow in abundance. He advises everybody to wait until spring, as men enough have gone in already to prospect the country so far as it can be done before winter sets in. Mr. Taylor had some of the gold with him. It is of a coarse nature.

INFORMATION WANTED.—The sister of Frank Perkins writes the postmaster here, making inquiries as to his whereabouts. Mr. Randall says that some time about the last of February, Perkins was here; since that time he has neither seen or heard anything of him. He had a box rented at the postoffice and always called very punctually for his letters; was always very particular about his letters. Quite a number of letters have accumulated and none have been called for since February. Perkins was engaged, Mr. Randall thinks, in the milling or logging business, down the river. His sister writes from Beverly, Massachusetts, and the letters now in the office for Frank Perkins are post marked, "Beverly, Mass.," "Hanscom, Mass.," San Francisco" and other places. Information sent to the postmaster here will be forwarded to Mr. Perkins' friends.

WHEAT.—On Thursday there was considerable spirit in the wheat market, and all day there was a disposition manifested to jump the price up; but the day finally closed with the price unchanged, but firm at 95c. Yesterday morning a lively competition for the possession of some good lots offered, sprung up between a couple of large buyers, resulting in the offer of 98c by one of the parties, followed by an offer of $1 00 by the other, and thence forward, all lots were taken at the latter figure. Last night's dispatch from San Francisco gives intelligence of another decided rise at the bay, which will, however, not be likely to immediately affect the price here. The occasion of the last rise in San Francisco is that three vessels are under charter for foreign markets, and cargoes are wanted at once.

RESOLUTIONS OF CONDOLENCE.—At a special meeting of the Washington Guard, held at their Armory Friday, October 11th, 1867, the following resolutions were unanimously adopted:

Whereas, It having been the decree of an all-wise God in His infinite wisdom to remove from our ranks our late fellow-soldier, John Ilse, therefore be it

Resolved, That while we bow in humble submission to the will of an Everlasting Power, we can but mourn the loss of our late fellow-member and associate.

Resolved, That to the bereaved family of our departed friend, we tender our heart-felt sympathy in this, their hour of sorrow.

Resolved, That the Armory be draped with the usual emblems of mourning for a period of thirty days.

Resolved, That these resolutions be published in the daily papers and a copy be transmitted to the family of the deceased. J. A. THOMAS, *Sec'y.*

SENT TO JAIL.—Jim Simmons, tried yesterday, before justice Anderson for an assault and battery upon John Wesley, was found guilty and sentenced to two days in the county jail. Jim expressed his opinions of John Wesley in the freest possible manner, after the conclusion of the trial, and said he (Jim) would yet get him (John) upon the hip. Some bystander remarked that John would be appointed Deputy Marshal and that he (Jim) had better look out. Jim promptly replied to that: "Wake! no law for an Indian to be Marshal;" thereby showing that he is something of a lawyer, withal.

FIRE.—About 5 o'clock yesterday afternoon, a fire broke out in a small building on Main street, between Front and First, occupied by Mr. Wagoner as a stable. The building was destroyed, the fire having got under good headway among the hay before the alarm was given. The fire companies were on hand and saved all the adjoining buildings, one or two of which stood almost touching the stable. Their aides and roofs were considerably scorched, but no serious damage was done them. The loss of the stable, will probably, not exceed $100. H. B. Gorman was the owner.

RUSH OF FREIGHT.—The *Sierra Nevada* brought up a tremendous freight. To use a river phrase, she was "loaded to the guards." She was so much deeper than usual in the water, that Capt. Metzger deemed it not prudent to attempt the passage of the river bars till high tide. Accordingly, she was at anchor for several hours at the mouth of the river. The *Oklahoma* is reported to be, also, loaded heavily with goods for Portland and Victoria.

NEWSPAPERS.—Upon the arrival of the *Sierra Nevada*, last evening, Mr. Chas Barrett delivered to us copies of the latest dates, of the following newspapers, magazines and periodicals: New York *Tribune Herald, Clipper Police Gazette, Harpers Weekly, Harpers Magazine, Frank Leslie's Illustrated, Leslie's Ladies' Magazine* and others. Mr. Barrett has a very fine assortment of all the late Eastern and Pacific coast publications.

THE "PALESHING."—This vessel has already taken on board 650 bbls flour, 300 bushels wheat and a lot of staves, and this morning will drop down to Springville to take in 800 tons wheat. The captain informs us that he has had offered him freight to nearly double the capacity of his vessel.

WILLAMETTE FREIGHTS.—Arrived per steamer *Alert*, yesterday, from Oregon City: 100 qr sks flour, 224 bags feed, 446 boxes apples, 1 bale woolen goods, 2 tons pig iron, 374 bags wheat, 161 bags barley, 96 sks oats and 10 boxes assorted fruit.

THE SWAG PULLED.—The snag puller has been for some time on duty among the snags at the mouth of the river. Yesterday morning it was towed up to Swan Island bar by the *Steele Troop*.

NOTICE.—There is dispatch at the telegraph office for George Atesley.

SAN FRANCISCO MARKETS.—Our files of papers by the steamer *Sierra Nevada* arrived at an late hour to be of use in making up our weekly review of the market. In order to give the latest information—even though out of its proper place—we copy the following items from the *Times* of the 25th, the latest date received

The money rate is held, per cent. per month, and for exceptionable notes 1½ per cent, while time loans upon real estate, etc., covered by unexceptionable securities are obtainable at ten per cent per annum. The supply of capital is abundant for all needed purposes, at rates above named.

On Tuesday next James & Bendixon will hold an extensive Rice sale consisting of the two cargoes per *Fairlight* and *Blackburn*, from Hongkong, in all 21,473 mats. This will be a severe test for the market.

The ship *Andrew Jackson* has been chartered to load Wheat for Liverpool direct, upon terms reserved.

The *Wyoming* has been taken by H. & W. Pierce, and is to load Wheat for Liverpool at extreme rates.

The Subsistence Department for the Army of the Pacific advertise for 41,000 lbs Bacon, 1,000 lbs Ham, 101,000 lbs extra Flour, 13,000 lbs Beans, 26,000 lbs Green Coffee, 27,000 lbs Island Sugar, 2,000 lbs Crushed Sugar, 2,000 lbs Candles, 9,000 lbs Brown Soap, 9,000 lbs Salt, and 425 lbs Black Pepper.

A cable telegram says the extensive grain operations on the part of the French Government and mercantile houses have reduced the specie in the Bank of France to £1,000,000.

Advices from Frankfort in the *Times* state that wheat is continuously bought up at firm prices for France and Switzerland.

Telegrams from New York report choice California Flour at $15 50 per bbl. It was the knowledge of this advance that induced parties to engage freight for Flour for shipment East via Isthmus, as noted in our previous issue

The Wheat market closes strong. The arrivals for the week have been heavy—up to the full average of the season—and yet prices have hardened daily under the operations of an active milling and shipping demand. Barley, Oats and Hay on the contrary, appear to favor the buyer.

In relation to the great advance in the price of Flour at New York to $15 50 ₱ bbl as noted in Saturday's TIMES, some surprise is manifested by dealers that it should occur just at this period, when the receipts of Breadstuffs at the seaboard are generally the heaviest. It has, however, been suggested to us, that the rise is to a considerable extent to be attributed to the failure of the Indian Corn crop at the West. In this connection we print the following upon the subject of an advance in Breadstuffs as we find it in the New York *Prices Current*. There has been a decided advance in Flour and Wheat during the last day or two, based upon reduced estimates of the Wheat crop, and stimulated, to some extent, by the growing disposition of farmers and others in the West to hold for higher prices. The purchase of a few thousand bushels of Wheat for France, and the rather remote possibility of a war in Continental Europe, also strengthen the views of holders, and the result is the few orders from Europe have been shut out, notwithstanding the rise in gold. That the Wheat crop of France and Germany is somewhat below the average, and that Great Britain will have to import largely of food the ensuing season, there is no reason to doubt; but it should be remembered that the yield of cereals on the Danube, and, indeed, in all those regions which pour their products into the ports of the world through the Black Sea, is very large this year, so that we shall not be without active competitors in supplying European deficiencies. At a reasonable scale of prices, we shall, no doubt, find a ready market for all our surplus grain; but it may reasonably be doubted that European markets will draw supplies from this side of the Atlantic, when they can do much better nearer home.

The Steamship *America* carried away on Saturday twenty-one thousand pounds of wool for New York.

Oregon Salmon, in bbls, are nominal at $8 ₱ bbl.

PIONEERS VS. CLACKAMAS CLUB.—The game between these two Clubs took place at the Fair Grounds, yesterday forenoon, resulting in a score of 63 by the Pioneers and 53 by the Clackamas club. From the various telegrams received here and at Oregon City while the game was in progress, it appears to have been closely contested from the first. The result of this game gives the Pioneers the champion $40 bat offered by the State Agricultural Society.

TALL CORN.—Mr. Miller, at the corner of Washington and First streets, had on exhibition yesterday, some stalks of corn, grown by a Mr. Files, on the east side of the river, which might be called decidedly high corn. They reached about eleven feet from the roots to the ends of the tassels, and one of them had three ears, the lowest of which was about eight feet from the ground; the highest, over nine feet. None of the ears were less than six feet from the ground. The ears were all of good size and well filled.

LEOPOLD BARMAN, of the firm of Barman Bros., is yet at the city of San Francisco, and we are glad to be informed that our young friend is in the enjoyment of the best of health. It is also proper for us to state to the public that Leopold is still selling lots of fine and cheap clothing. Just call around at Barman's place of business and be convinced that they are introducing only good goods in their line. Those who are in want of good clothing should turn their attention to the large stock which will be open to-day, or Monday next.

REAL ESTATE SALE AT AUCTION.—Do not forget that at 12 A. M., to-day, will be sold at auction a portion of the lots belonging to the estate of C. N. Hamilton, deceased. Sale takes place at Mr. A. B. Richardson's auction store. Do not forget, either, that to-day is Richardson's regular sales day.

IRON, IRON.—If anybody in this city has got a *big* stock of iron, and all the varieties known to the trade, Messrs. Underhill & Co. are the men. They received about 2,500 bars by the *Sam. Merrill*, of sizes from 5-inch shaft iron to the smallest rods in use, and of all the shapes into which bars are made. The piles and stacks in their warehouse are simply immense. The shipment by the *Merrill* came out from Liverpool in the bark *Mountain Laurel*. They import direct from Liverpool; and they now have afloat and to arrive about three times as much as that mentioned above. Interior merchants should not fail to call on Underhill & Co., corner Front and Oak streets.

The Proprietor of the LAFAYETTE RESTAURANT takes pleasure in informing his friends and the public in general, that from this date, and during the oyster season, he will keep his establishment open at night until 2 o'clock A. M., and will serve Oysters and Suppers in every style. PIERRE MANCIET.

DR. HOSTETTER'S STOMACH BITTERS.—The operation of this palatable remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties, and it is recommended to mothers, enfeebled by the cares and duties of maternity, as the safest and best tonic they can probably use. In all the crisis of female life it will be found eminently useful, and elderly persons will derive much more benefit from it than from ordinary stimulants.—Sold by all Druggists and dealers everywhere.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blest." We are informed by our principal druggists, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.*

DID NOT LIKE THE WIDOWERS.—In endeavoring to take the census for the government, the officers occasionally met with such difficulties as well might deprived them of their senses. The following colloquy is said to have take place somewhere between an official and an Irish woman.

"How many male members have you in your family?"

"Niver a one."

"Whom were you married?"

"The day that Pat Doyle left Tipperary for Amerika. Ah, well I remember it. A sunshinier day niver gilded the sky of auld Ireland."

"What was the condition of your husband before marriage?"

"Divil a more misirable. He said if I didn't give a promise within two weeks he would blow his brains wid a crowbar."

"Was he at the time of marriage a widower or bachelor?"

"A which? A widower did ye say? Ah now gon away wid yer nonsense. Is it the likes of me that would take up wid a second hand husband? Do I look like the wife of a widower. A poor divil, all lugs and consumption, like a sick turkey! A widower! May I be blessed if I'd not rather live an auld maide and bring up a family on buttermilk an praties!"

TEARS.—An eminent lawyer in Missouri, addressed a jury with great affect and so much pathos that at several points he was unable to restrain his feelings, the tears running down his cheeks. "Gentlemen of the jury," said his opponent, "I have known brother Wright several years; we are quite intimate, have just been on a fishing tour, and while on the trip this piece of paper fell from his pocket. I saved it, and find it was a leaf from his speech, and, gentlemen, it is the crying leaf, for you will notice at certain points, at the end of the sentences, he has marked 'tears, tears,' now, gentlemen, I have watched him, and he puts the tears in every time."

FINANCE AND COMMERCE.

WEEKLY REVIEW.

PORTLAND, FRIDAY, Oct. 11, 1867.

Our latest advices from New York are dated 10th. Gold closed at 143½. Legal Tenders on that day were 70@70½ at San Francisco. The telegraph reports that the money panic which occurred during the first week of October, has passed and a better tone exists. U. S. bonds are reported to have declined in Europe in consequence of persistent misrepresentations of European speculators in finance. One of the rumors set afloat to prejudice the bonds, was to the effect that the interest accruing and payable in November, would be paid in greenbacks. This has been officially contradicted.

The activity of our markets, mentioned last week, has continued through the period under review, unless we may except the hardware trade which has decidedly fallen off.

The produce market presents very encouraging aspects. Wheat and flour are in active demand, the former at an advance of 10c per bushel and the latter at an average advance of 62½ ₱ bbl. Both are higher in San Francisco than last week. The report from New York is that there is a fair demand for wheat at $3 20, and that flour is firm at $15 50. The Liverpool market is improved. At most of the foreign ports to which we export breadstuffs, the demand is inviting and prices remunerative. There is no apparent reason for supposing that the foreign markets will offer any less favorable inducements to our exporters, than now, till the next harvest. There is no grain growing country which has produced this year more than an average crop, while the most of them have harvested from small to less than half crops. The conclusion is, therefore, natural that those countries which have a surplus will obtain for it a fair price; there is no reason, however, for expecting an extravagant one. The true policy of our producers is to permit their grain to go freely and steadily upon the market whenever a fair price is offered. It would be folly to repeat the practices of former years, of shutting up in the granaries every bushel of wheat the moment a decided rise takes place. If we are ever to secure a permanent market, we must always have and must always let go, enough to supply that market's demands.

Beside breadstuffs, there is no article of produce which presents any material change since last week. Oats were a little up during the first part of the week; but they have gone back again under free arrivals from the country, from 45c to 40c. Bacon is weaker and is less. Hams are in good supply and go at about 16c upon an average. Lard is declining slightly. The arrivals of produce, by wagon, are very free.

Groceries present about the same features as last week's trade very good. The steamer *Idaho* brings a report from Honolulu that the agent at Honolulu of the San Francisco and Pacific Sugar Refinery has been successful in renewing his contracts with the Hawaiian planters, and on a still larger scale. The result of these negotiations will be to harden the prices in this market again.

In dry goods, there has been less activity during the past week than for some time, which is partly attributable to the holding of the State Fair, many of the merchants being attracted thither. Nevertheless, a very fair business has been carried on, leaving little ground for complaint. It is quite probable that the coming week will be marked with the usual activity. Upon the whole, we think the merchants here are more fortunate than those doing business East of the Rocky mountains, except it may be those in the metropolitan cities. In most of the inland towns in the East, a general dullness prevails, whilst in portions of the Southwest there is added the gloomy accounts of yellow fever. So soon as our winter rains set in, and the Willamette reaches the proper stage for freighting, there will be a new impetus to trade, and the boats' manifests both up and down will show a large increase.

Of business up the Columbia, the Umatilla *Press* of the 4th inst says:

The activity in trade experienced during September promises to continue during this month. Although the season commenced rather inauspiciously, for reasons already explained and understood, business has revived with a degree of confidence that imparts vigor in all transactions. Reports from all sections of the country are favorable and encouraging, and it is with assurance that the crisis is passed.

Our town presents a lively appearance, caused by the influx of freight and the forwarding thereof. For the first time this season the regular boats of the O. S. N. Co. have been unable to bring up all the freight offered, and an extra freight boat had to be put into service this week. The means of transportation, however, are fully adequate to the demand, and freight is shipped as fast as it is received, at prices, considering the circumstances, remarkably low. We quote.

To Idaho City, by ox teams,.....7½ cents.
On mule teams and trains,.....8 "
To Owyhee,.....7 "

Amongst the goods received this week there is about 100,000 pounds of Owyhee freight, part of which we notice is for a branch store at Owyhee of a house doing business in Sacramento. This looks rather bad for our neighbors of the Humboldt route. It may do very well to send election news, with ponies stationed at certain points along the route, in 68 hours. Passengers can also be hurried over alkali and sage brush day and night but when it comes to the transportation of freight where short and good route, water and wood at convenient distances, is required, the Humboldt route is now out.

To confirm what we say, we need only refer to H. C. Squires, a well known teamster here, who last fall loaded with Government freight for Camp Warner, and who are now being well advanced when arriving there, had to winter in California. This spring he loaded freight at Cisco for Owyhee, at from 10 to 12½ cts. in coin, and was offered a second load at 12½ cts in coin, but he wanted no more of that road, and came here and loaded for Owyhee at 5 cents.

The Idaho *World* of Idaho City, Oct. 2d has the following from Lemhi, on the information of Mr. J. H. Winfrey.

Locality is, comparatively, very dull. McNatt & Phillips—a Montana firm—and four or five other mercantile houses, remain to carry on the trade. The stock of goods on hand is ample to last through the winter, and none come in, save small quantities to fill special orders. It is believed that business will be better next year, however, when prices will be somewhat advanced, and competition will not cause such heavy sacrifices as there occurred this year. An influx of Chinamen is looked for this Fall and next Spring, who can find ample employment in the mines without molestation from the white miners. There have been several discoveries of gold and silver quartz ledges in various districts in that region, but Mr Winfrey is not aware of the quality of these discoveries.

Salmon City is almost deserted Mr Winfrey thinks the whole amount of goods in the place not so large as can be found in the stores of any one of the principal mercantile houses of Idaho City. Frank Kenyon has discontinued the publication of the *Mining News* there, and removed his type and press to Deer Lodge, Montana Territory, where he proposes to publish a paper.

There are a few farming claims taken up in Lemhi valley, and potatoes seem to be the principal crop. Mr Winfrey did not see any wheat, oats or barley, and but a few patches of corn. The valley is about thirty miles long, and from its opening among the hills broadens out to two miles' width where it borders along the Lemhi river, which empties in Salmon a little below Salmon City.

On the way thither, Mr. Winfrey saw and traveled along the road with persons journeying from Montana to points below. All these persons gave similar reports as to the condition of things in that Territory. The miners are almost completely exhausted, trade was stagnant, and very hard times and much suffering were visible on every hand. A dollar would purchase more goods in Helena or Virginia cities than in almost any of the towns in the Western States, where prices always rule exceedingly low. To use a common phrase, it appears that the bottom has fallen out of Montana, and her inhabitants are rapidly leaving or preparing to leave.

☞ BRONCHITIS OR CHRONIC SORE THROAT.—It is attended with irritation of the bronchial tubes, which convey the air we breathe into the lungs. This irritation produces sore throat, hoarseness, coughing, and sometimes spitting of matter streaked with blood. If it is neglected it will extend down to the lungs, and settle into confirmed consumption. ALLEN'S LUNG BALSAM will be found a most valuable remedy for curing this disease, and prevent its running into Consumption.—Sold by dealers in family medicines generally.

FOR NON-RETENTION OR INCONTINENCE of Urine, Irritation, Inflammation, or ulceration of the bladder or kidneys, diseases of the prostrate glands, stone in the bladder, calculus, gravel or brick dust deposits, and all diseases of the bladder, kidneys and dropsical swellings, USE BAUCHUPAHA'S FLUID EXTRACT BUCHU.

We should not suffer from a Cough, which a few doses of AYER'S CHERRY PECTORAL will cure. Time, comfort, health, are all saved by it.

CARD.
DR. BARLOW J. SMITH'S WATER CURE AND Physiological Institute, 627 Sacramento Street, San Francisco. This is the only Regular Water Cure in San Francisco, where all curable diseases are treated without drugs. Dr. Smith was the first to establish a water cure on this coast, based upon the theory and practice of the New York Hydropathic College.
We have a truly healthful boarding place for men, women and children, and our prices are moderate.
The Physiological organs plainly indicate the diseases to which any person, male or female, is predisposed.
Put this card in your hat, and when you come to San Francisco, call on Dr. Smith. He will give you consultation and a physiological examination in regard to health. It will cost you nothing and may save you mouths and years of ill health and "bad luck."
Dr. Smith gives free lectures to gentlemen every Friday evening, on subjects pertaining to health, at his Physiological Hall, 627 Sacramento Street.

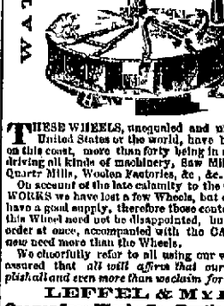
LEFFEL'S
AMERICAN DOUBLE TURBINE


THESE WHEELS, unequaled and unrivaled in the United States or the world, have been fully tested on this coast, more than forty being in use at this date, driving all kinds of machinery, Saw Mills, Flour Mills, Quartz Mills, Woolen Factories, &c., &c.
On account of the late calamity to the OREGON IRON WORKS we have lost a few Wheels, but of these sizes we have a good supply, therefore those contemplating using this Wheel need not be disappointed, but forward their order at once, accompanied with the CASH, which we now need more than the Wheels.
We cheerfully refer to all using our wheels, and are assured that *all will affirm that our wheels accomplish all and even more than we claim for them.* Address

REMOVED TO SALEM, OREGON.
DR. W. B. DIEFENBACH'S
MEDICAL DISPENSARY!
IN TENDERING MY SERVICES TO THE PUBLIC, I desire to call the attention of those who suffer from the effects of Private Diseases, such as Primary, Secondary and Tertiary forms. I shall endeavor to effect a permanent cure to those who will follow my precepts and directions, using no Mineral Drugs whatever, as my practice is entirely Botanical or Vegetable.
Ommision or Self Abuse, another curse of our present generation, the cause of so many morbid symptoms that so often baffle the skill of the physician, will be entirely annihilated by complying strictly with my method of treatment. Consultations by letter or otherwise free, and promptly answered.
Furthermore, Apoplexy, Epilepsy, Paralysis, Neuralgia, Typhoid, Bilious, Intermittent Fevers, etc., Asthma, Incipient Consumption, Bronchitis, Loss of Appetite, and Seminal Complaints cured in all their forms whatever, by W. B DIEFENB
